PROFESSIONAL SUMMARY

Motivated Computer Science undergraduate with hands-on experience in web development, Python programming, and responsive application design. Familiar with Software Development Life Cycle (SDLC), REST APIs, debugging, and problem-solving concepts. Experienced in developing academic and project-based applications using React.js, Python, Django, SQL, HTML, and CSS. Passionate about software engineering, cloud computing, AI technologies, and learning modern development practices.

EDUCATION

Dr. APJ Abdul Kalam Technical University
Bachelor of Technology in Computer Science

Sep. 2022 – May 2026
Varanasi, Uttar Pradesh

RELEVANT COURSEWORK

- Data Structures
- OOPs
- DBMS
- Computer Networks
- Operating Systems
- SDLC
- Software Engineering
- Web Technologies

TRAINING

Acmegrade

Web Development Trainee

March 2025 – April 2025

- Completed hands-on training in frontend and backend web development.
- Developed responsive web interfaces using HTML, CSS, JavaScript, and Bootstrap.
- Applied project-based learning and coding practices.

KPB Solutions

Developer Intern

July 2025 – August 2025

- Contributed to application development and testing tasks.
- Assisted in designing and debugging web application features.
- Collaborated with senior developers to improve code quality.

PROJECTS

Shopping Website | *React.js, HTML, CSS*

June 2025

- Built a responsive shopping website with product listings and cart functionality.
- Designed frontend components using React.js and JavaScript.
- Applied responsive web design and debugging techniques.
- Implemented testing and debugging techniques to improve application reliability and user experience.

Jarvis AI Assistant | *Python, Django, SQLite*

Feb 2026

- Built a full-stack AI chatbot application using Django and Python.
- Integrated Groq API for conversational AI responses.
- Implemented login system and chat history management using SQLite.
- Developed context retrieval features for improved interaction.

CERTIFICATIONS

Web Development Training - Acmegrade

2025

Python Programming Fundamentals

2025

AWS Cloud Fundamentals

2025

TECHNICAL SKILLS

Languages: Python, JavaScript (Basics), Java (Fundamentals), SQL, HTML5, CSS3

Frontend: React.js, Bootstrap

Backend: Django

Tools: VS Code, Git, GitHub, Linux

Database: SQLite, MySQL

Concepts: OOPs, SDLC, REST APIs, Debugging, Problem Solving

SOFT SKILLS

Communication, Team Collaboration, Analytical Thinking, Adaptability, Problem Solving
